

18th/19th Annual World Congress on
Anti-Aging Medicine & Regenerative
Biomedical Technologies
Winter 2010 and Spring 2011
Speaker Submission Guidelines

Please make your electronic submission of your speaker materials to A4M Scientific Program Coordinator

NO LATER than May 10, 2010 - Winter 2010
August 31, 2010 - Spring 2011

Please send ALL of the following by email to: program@a4m.com

[] SPEAKER BIOGRAPHY: Up to fifty (50) words describing the speaker's clinical and/or research pursuits and relevance to lecture topic. If multiple lecturers giving a single presentation, limit each speaker biography to 35 words for each. Include primary speaker contact information.

[] SPEAKER CV/RESUME

[] SPEAKER PHOTOGRAPH: An image file (color headshot) at minimum resolution of 300 dpi (dots per inch) in JPG or TIF file format.

[] ABSTRACTS CRITERIA:

Please adhere to the following guidelines:

- Content shall be pertinent to topic of lecture.
- Focused on clinical interventions.
- Applicable to the specialty of Anti-Aging Medicine.
- Content shall be absent of commercial statements and/or product endorsement. When mention of a particular product is necessary, opt to generic whenever possible.
- Include a minimum of four (4) References (bibliographic citations) and, if appropriate, Resources (relevant sources of additional information on the subject of your article).
- Timeliness to current event in disease and society.
- Limit your submission to a maximum of two (2) pages.
- Submit in MS® Word file format.
- Illustrations: submit electronic files as TIF, EPS, JPG, or GIF. Color illustrations are preferable.
- For style, conform to AMA Manual of Style, 9th Edition editorial guidelines.

IMPORTANT: GENERAL EDITORIAL POLICY OF THE A4M WORLD CONGRESS ON ANTI-AGING & REGENERATIVE BIOMEDICAL TECHNOLOGIES:

- A4M reserves the right to edit or otherwise modify all submissions at its discretion.
- A4M is not responsible for lost or misdirected submissions and/or queries.
- All decisions of A4M editorial staff are considered as final.

A4M reserves the right to modify, at its sole discretion and without notice, the information contained on this document.

PLEASE EMAIL MATERIALS TO PROGRAM@A4M.COM

American Academy of Anti-Aging Medicine (A4M) is the first medical society to take an active stand against the degenerative diseases and dysfunction that occur with aging and promote early prevention and intervention in physiologic diseases of Aging.

We are a non-for-profit medical society dedicated to the advancement of technology to detect, prevent, and treat aging related diseases and to promote research into methods to retard and optimize the human aging process and to prevent and treat aging related disorders. A4M is also dedicated to educating physicians, scientists and members of the public on issues of advanced preventive medicine and cutting edge biotechnologies.

Our organization, A4M, is now over 22,000 members strong in 105 nations. We have trained over 100,000 physicians at our International Scientific Conferences over the past 15 years. A4M provides ongoing medical and scientific education and information services to over 500,000 healthcare professionals monthly via our on-line educational programs.

Check out www.worldhealth.net, the number one website for aging intervention information.
